Professional Summary

I am an IT Support Specialist and Field Technician with hands-on experience supporting users, devices, printers, networks, and on-site technology projects. Background includes field service, school technology support, device deployment, user training, and troubleshooting across office and client environments. Strong mix of technical support, customer service, and practical problem-solving.

Key Skills

IT Support | Hardware Troubleshooting | Device Imaging | Printer Support | Network Troubleshooting | User Access Support | Router/Switch Basics | Microsoft 365 | Google Workspace | Cloud Fundamentals | Web & Mobile Development

Professional Experience

Help Desk Support | Sarepta Therapeutics| July 2026 - Present

- Provide corporate IT support for hardware, software, account access, and remote connectivity issues.
- Support Microsoft 365, Outlook, Teams, and user accounts through Active Directory and Entra ID.
- Troubleshoot device enrollment, application installation, printers, and peripheral issues.
- Document troubleshooting and resolutions in ServiceNow and coordinate escalations with other IT teams.

Field Technician | Field Nation, *Maine, New Hampshire, and Massachusetts | Present*

- Complete onsite IT service calls for hardware repairs, part replacements, device setup, and peripheral installations.
- Troubleshoot desktop, laptop, printer, cabling, and connectivity issues across different client sites.
- Restore workstation access and network connectivity by checking devices, configurations, and physical connections.
- Communicate clearly with clients and document work completed after each assignment.

On-Site IT Support Engineer | Lonza Group AG, *Rockland, ME | Nov 2024 – Apr 2026*

- Provided daily onsite support for user access, workstations, printers, software, and network-related issues.
- Migrated site printers from a legacy server to a newer print environment to reduce recurring print issues.
- Supported wireless access point replacement work to improve network coverage and stability.
- Imaged, deployed, and validated replacement laptops and workstations during hardware refresh projects.

IT Support Specialist | Assurance Residential Services — Lewiston, ME: *2024*

- Provided IT support for workstations, printers, and software systems.
- Managed and updated the organization’s website.
- Handled account setup and password troubleshooting for staff.

Technology Coach & IT Support | Greenhills Academy — Rwanda: *2021–2023*

- Trained teachers and students on digital tools, increasing adoption and reducing support requests.
- Troubleshot devices and network issues across campus.
- Helped manage IT resources and technology usage policies.

IT Director & Technology Coach | Hope International School — DRC: *2020–2021*

- Managed G Suite for Education, school systems, and on-site network installations.
- Delivered technology training that improved staff productivity.
